SECTION A: INTRODUCTION

1. INTRODUCTION

The report has been compiled in line with the 2022/2023 Service Delivery and Budget Implementation Plan (SDBIP) of Vhembe District Municipality as approved by Council and published in our website. It outlines the performance of the municipality against the targets and objectives as set out in the Integrated Development Plan (IDP) of the municipality. The report is prepared in line with Section 52 (d) of the Municipal Finance Management Act (Act 56 of 2003) together with Section 41 (e) of the Municipal Systems Act (Act 32 of 2000).

Our Service Delivery and Budget Implementation Plan (SDBIP) commits Vhembe District Municipality to ensure that the organization delivers on the Integrated Development Plan (IDP), budget (both capital and operational) spending and service delivery targets during the 2022/2023 financial year. It is a detailed plan of how we will on quarterly basis implement and report on the objectives set out in our IDP. SDBIP gives operational expression to the IDP.

The strategic direction that the Municipality is undertaking is set out in its Integrated Development Plan (IDP). The plan has been reviewed for the 2022/2023 financial year in conjunction with the stakeholders and community. The direction that the five-year IDP embarked on has been emphasized and the Municipality continues the path of completing the service delivery backlog.

3. Conclusion

The SDBIP is yet another step forward to increasing the principle of democratic and accountable (local) government as enshrined in Section 152(a) of the Constitution. It is in essence the management and implementation tool which sets in-year information such as quarterly service delivery and monthly budget targets and links each service delivery output to the budget of the municipality. It further indicates the responsibilities and outputs for each of the General Managers, the resources to be used and the deadlines set for the relevant activities. As this quarter report of this financial year 2022/2023, this SDBIP report should serve as an early warning mechanism to management in cases where there is underperformance by the municipality for them to take remedial action with immediate effect to address the failure.
